SUMMARY OF MEETING:

The task group reviewed comments and negatives on the ballot F24.61 (22-02) item number 2, Revision of F2970-20 Practice for Design, Manufacture, Installation, Operation, Maintenance, Inspection and Major Modification of Trampoline Courts. The balloted language was revised based on the feedback.

CPSC staff suggested to the task group that a review of incident data related to institutional trampoline use could help ensure all of the hazard patterns were being addressed. Other task group members agreed, and asked CPSC staff to provide any available data; staff agreed to do so.

The task group will continue reviewing comments and negatives at the next task group meeting on June 30.
